

TorqueGeneratedPreparseData
< PreparseData, HeapObject >

const

kDataStartOffset

v8::internal::PreparseData

The diagram illustrates the relationship between three entities. At the bottom is a grey box labeled 'v8::internal::PreparseData'. A solid blue arrow points from this box to a white box at the top left labeled 'TorqueGeneratedPreparseData < PreparseData, HeapObject >'. A dashed purple arrow points from the 'v8::internal::PreparseData' box to a white box at the top right labeled 'const'. The label 'kDataStartOffset' is positioned to the right of the dashed arrow, indicating the specific field or offset being referenced.
