The diagram illustrates a call graph where two source functions, 'v8::internal::OldLargeObjectSpace::AllocateRaw' and 'v8::internal::MarkCompactWeakObjectRetainer::RetainAs', both point to a common target function, 'v8::internal::MarkingStateBase::TryMarkAndAccountLiveBytes'. The target function is highlighted in a grey box, while the source functions are in white boxes with black borders. Blue arrows indicate the direction of the calls from the source functions to the target function.
