

v8::internal::compiler  
::turbohaft::WasmShuffleAnalyzer  
::WasmShuffleAnalyzer

```
graph LR; A["v8::internal::compiler  
::turbohaft::WasmShuffleAnalyzer  
::WasmShuffleAnalyzer"] --> B["v8::internal::compiler  
::turbohaft::WasmShuffleAnalyzer::Run"]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains three lines of text: 'v8::internal::compiler', '::turbohaft::WasmShuffleAnalyzer', and '::WasmShuffleAnalyzer'. The right box is gray with a black border and contains two lines of text: 'v8::internal::compiler' and '::turbohaft::WasmShuffleAnalyzer::Run'.
