

v8::internal::compiler
::InstructionSelector
::EmitWithContinuation

```
graph LR; A["v8::internal::compiler  
::InstructionSelector  
::EmitWithContinuation"] --> B["v8::internal::compiler  
::InstructionSelector  
::AddOutputToSelectContinuation"]
```

A diagram showing a call from the `EmitWithContinuation` method to the `AddOutputToSelectContinuation` method. The source box is white with a black border, and the target box is gray with a black border. A blue arrow points from the source box to the target box.
