

v8::internal::Assembler  
::emit\_test

```
graph LR; A["v8::internal::Assembler  
::emit_test"] --> B["size"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is gray with a black border and contains the text 'v8::internal::Assembler' on the top line and '::emit\_test' on the bottom line. A dark blue arrow points from the right side of this box to the left side of a second box. The second box is white with a black border and contains the text 'size'.
