

v8::internal::PlatformEmbedded
FileWriterGeneric::DeclareFunctionBegin

v8::internal::PlatformEmbedded
FileWriterGeneric::DeclareUint32

v8::internal::PlatformEmbedded
FileWriterGeneric::DeclareSymbol
Global

```
graph LR; A[v8::internal::PlatformEmbedded  
FileWriterGeneric::DeclareFunctionBegin] --> C[v8::internal::PlatformEmbedded  
FileWriterGeneric::DeclareSymbol  
Global]; B[v8::internal::PlatformEmbedded  
FileWriterGeneric::DeclareUint32] --> C;
```

The diagram illustrates a relationship between three V8 internal functions. On the left, two white rectangular boxes represent source functions: 'v8::internal::PlatformEmbedded FileWriterGeneric::DeclareFunctionBegin' (top) and 'v8::internal::PlatformEmbedded FileWriterGeneric::DeclareUint32' (bottom). On the right, a gray rectangular box represents the target function: 'v8::internal::PlatformEmbedded FileWriterGeneric::DeclareSymbol Global'. Two blue arrows point from the source boxes to the target box, indicating that both source functions are related to or point to the target function.
