

v8::internal::TurbofanStub  
WithContextFrame::Iterate

v8::internal::TurbofanJSFrame  
::Iterate

v8::internal::CommonFrame  
::IterateTurbofanJSOptimizedFrame

```
graph LR; A["v8::internal::TurbofanStub<br/>WithContextFrame::Iterate"] --> C["v8::internal::CommonFrame<br/>::IterateTurbofanJSOptimizedFrame"]; B["v8::internal::TurbofanJSFrame<br/>::Iterate"] --> C;
```

The diagram illustrates a relationship between three V8 internal components. On the left, there are two white rectangular boxes. The top box contains the text 'v8::internal::TurbofanStub WithContextFrame::Iterate'. The bottom box contains 'v8::internal::TurbofanJSFrame ::Iterate'. On the right, there is a single gray rectangular box containing 'v8::internal::CommonFrame ::IterateTurbofanJSOptimizedFrame'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both the TurbofanStub and TurbofanJSFrame components utilize the CommonFrame::IterateTurbofanJSOptimizedFrame method.
