

```
v8::internal::interpreter  
::BytecodeArrayBuilder  
  ::ForInPrepare
```

```
graph LR; A["v8::internal::interpreter  
::BytecodeArrayBuilder  
  ::ForInPrepare"] --> B["v8::internal::interpreter  
::RegisterList::register_count"]
```

A diagram showing a call from the `ForInPrepare` method of the `BytecodeArrayBuilder` class to the `register_count` property of the `RegisterList` class. The left box is shaded gray and the right box is white. A blue arrow points from the left box to the right box.

```
v8::internal::interpreter  
::RegisterList::register_count
```
