

v8::internal::FeedbackMetadata::New

v8::internal::FeedbackMetadata  
::SpecDiffersFrom

v8::internal::FeedbackVector  
Spec::GetKind

```
graph LR; A[v8::internal::FeedbackMetadata::New] --> C[v8::internal::FeedbackVector<br/>Spec::GetKind]; B[v8::internal::FeedbackMetadata<br/>::SpecDiffersFrom] --> C;
```

The diagram illustrates a dependency or relationship between three V8 internal functions. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'v8::internal::FeedbackMetadata::New'. The bottom box contains the text 'v8::internal::FeedbackMetadata' followed by '::SpecDiffersFrom' on a new line. On the right, a gray rectangular box contains the text 'v8::internal::FeedbackVector' followed by 'Spec::GetKind' on a new line. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both functions on the left depend on or interact with the function on the right.
