

v8::internal::maglev
::MaglevGraphBuilder
::TryBuildFastOrdinaryHasInstance

```
graph LR; A["v8::internal::maglev  
::MaglevGraphBuilder  
::TryBuildFastOrdinaryHasInstance"] --> B[broker]
```

A diagram showing a call to the `TryBuildFastOrdinaryHasInstance` method of the `MaglevGraphBuilder` class within the `v8::internal::maglev` namespace. The call is represented by a blue arrow pointing from a large gray box to a smaller white box labeled `broker`.
