

v8::internal::CodeStubAssembler
::StoreElementTypedArray

v8::internal::CodeStubAssembler
::StoreElementTypedArrayWord32

v8::internal::anonymous
_namespace{code-stub-assembler
::cc}::ElementsKindToMachineRepresentation

```
graph LR; A["v8::internal::CodeStubAssembler::StoreElementTypedArray"] --> C["v8::internal::anonymous_namespace{code-stub-assembler::cc}::ElementsKindToMachineRepresentation"]; B["v8::internal::CodeStubAssembler::StoreElementTypedArrayWord32"] --> C;
```

The diagram illustrates a mapping from two source functions to a common target function. On the left, two white boxes represent the source functions: 'v8::internal::CodeStubAssembler::StoreElementTypedArray' (top) and 'v8::internal::CodeStubAssembler::StoreElementTypedArrayWord32' (bottom). On the right, a gray box represents the target function: 'v8::internal::anonymous_namespace{code-stub-assembler::cc}::ElementsKindToMachineRepresentation'. Two blue arrows point from each source box to the target box, indicating that both source functions are mapped to the same target function.
