

v8::internal::Instruction
::ImmBranch

v8::internal::Instruction
::IsImmBranch

v8::internal::Instruction
::BranchType

```
graph LR; A[v8::internal::Instruction::ImmBranch] --> C[v8::internal::Instruction::BranchType]; B[v8::internal::Instruction::IsImmBranch] --> C;
```

The diagram illustrates a relationship between three V8 instruction-related classes. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'v8::internal::Instruction::ImmBranch' and the bottom box contains 'v8::internal::Instruction::IsImmBranch'. On the right, a gray rectangular box contains the text 'v8::internal::Instruction::BranchType'. Two blue arrows point from the right side of the two white boxes to the left side of the gray box, indicating that both 'ImmBranch' and 'IsImmBranch' are related to or inherit from 'BranchType'.
