

v8::internal::SamplingHeap
Profiler::GetAllocationProfile

```
graph LR; A[v8::internal::SamplingHeap  
Profiler::GetAllocationProfile] --> B[v8::internal::SamplingHeap  
Profiler::TranslateAllocationNode];
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is white with a black border and contains the text 'v8::internal::SamplingHeap' on the first line and 'Profiler::GetAllocationProfile' on the second line. The right box is gray with a black border and contains the text 'v8::internal::SamplingHeap' on the first line and 'Profiler::TranslateAllocationNode' on the second line. A dark blue arrow points from the right side of the left box to the left side of the right box.
