

v8::internal::compiler  
::BytecodeGraphBuilder  
::EnsureInputBufferSize

```
graph LR; A["v8::internal::compiler  
::BytecodeGraphBuilder  
::EnsureInputBufferSize"] --> B["size"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is gray with a black border and contains three lines of text: 'v8::internal::compiler', '::BytecodeGraphBuilder', and '::EnsureInputBufferSize'. A blue arrow points from the right side of this box to the left side of a second, smaller white box with a black border. This second box contains the word 'size'.
