```
graph LR; A["v8::internal::Expression  
ParsingScope::ClearExpressionError"] --> D["v8::internal::Expression  
ParsingScope::clear"]; B["v8::internal::Expression  
ParsingScope::ClearPatternError"] --> D; C["v8::internal::Expression  
ParsingScope::ExpressionParsingScope"] --> D;
```

The diagram illustrates a dependency or inheritance relationship. Three source functions on the left are connected by blue arrows to a single target function on the right. The target function, 'v8::internal::Expression ParsingScope::clear', is highlighted with a gray background, while the source functions have white backgrounds. The arrows originate from the bottom-right of the first source box, the right side of the second source box, and the bottom-right of the third source box, all converging on the left side of the target box.
