

v8::internal::maglev
::NodeBase::OverwriteWith

v8::internal::maglev
::NodeBase::OverwriteWithIdentityTo

v8::internal::maglev
::NodeBase::set_properties

```
graph LR; A["v8::internal::maglev::NodeBase::OverwriteWith"] --> C["v8::internal::maglev::NodeBase::set_properties"]; B["v8::internal::maglev::NodeBase::OverwriteWithIdentityTo"] --> C;
```

The diagram illustrates a mapping or transformation between two source functions and a target function. Two white boxes on the left represent the source functions: 'v8::internal::maglev::NodeBase::OverwriteWith' (top) and 'v8::internal::maglev::NodeBase::OverwriteWithIdentityTo' (bottom). Two blue arrows point from these source functions to a single gray box on the right, which represents the target function: 'v8::internal::maglev::NodeBase::set_properties'.
