

v8::internal::compiler  
::turbohaft::Pipeline  
::AllocateRegisters

```
graph LR; A["v8::internal::compiler  
::turbohaft::Pipeline  
::AllocateRegisters"] --> B["v8::internal::compiler  
::RegisterAllocationData  
::ExistsUseWithoutDefinition"]
```

A diagram showing a call from the `AllocateRegisters` method of the `Pipeline` class to the `ExistsUseWithoutDefinition` method of the `RegisterAllocationData` class. The source box is white with a black border, and the target box is gray with a black border. A blue arrow points from the source to the target.
