The diagram illustrates a dependency or call relationship. Two source functions, 'v8::internal::OrderedHashTable::IterateEntries' and 'v8::internal::OrderedHashTable::NextChainEntryRaw', are shown on the left. Arrows from both of these functions point to a single target function, 'v8::internal::OrderedHashTable::UsedCapacity', which is located on the right. The target function box is shaded gray, while the source function boxes are white with black borders.
