

v8::internal::compiler
::BytecodeGraphBuilder
::common

```
graph LR; A["v8::internal::compiler  
::BytecodeGraphBuilder  
::common"] --> B["v8::internal::compiler  
::MachineGraph::common"]
```

A diagram showing a dependency. On the left, a gray rectangular box contains the text "v8::internal::compiler", "::BytecodeGraphBuilder", and "::common" stacked vertically. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text "v8::internal::compiler" and "::MachineGraph::common" stacked vertically.
