

v8::internal::compiler  
::InstructionScheduler  
::StressSchedulerQueue  
::random\_number\_generator

```
graph LR; A["v8::internal::compiler  
::InstructionScheduler  
::StressSchedulerQueue  
::random_number_generator"] --> B["v8::internal::compiler  
::InstructionScheduler  
::random_number_generator"]
```

The diagram consists of two rectangular boxes connected by a horizontal blue arrow pointing from left to right. The left box has a light gray background and contains four lines of text: 'v8::internal::compiler', '::InstructionScheduler', '::StressSchedulerQueue', and '::random\_number\_generator'. The right box has a white background and contains three lines of text: 'v8::internal::compiler', '::InstructionScheduler', and '::random\_number\_generator'. The arrow indicates a transition or mapping from the components in the left box to the components in the right box.
