

v8::internal::compiler
::TFPipelineData::set
_profile_data

```
graph LR; A["v8::internal::compiler::TFPipelineData::set_profile_data"] --> B["v8::internal::compiler::TFPipelineData::profile_data"]
```

A diagram showing a call to the `set_profile_data` method of the `v8::internal::compiler::TFPipelineData` class. The call is represented by a grey box on the left, and the target of the call, `profile_data`, is represented by a white box on the right. A blue arrow points from the `set_profile_data` method to the `profile_data` property.
