

v8::internal::SerializedData

```
graph BT; A[v8::internal::SerializedCodeData] --> B[v8::internal::SerializedData]
```

The diagram illustrates a relationship between two V8 internal classes. At the bottom is a gray box labeled 'v8::internal::SerializedCodeData'. A blue arrow points vertically upwards from this box to a white box at the top labeled 'v8::internal::SerializedData'. This indicates that 'SerializedCodeData' inherits from or is a specialization of 'SerializedData'.
