

v8::internal::compiler
::BytecodeGraphBuilder
::PrepareEagerCheckpoint

```
graph LR; A["v8::internal::compiler  
::BytecodeGraphBuilder  
::PrepareEagerCheckpoint"] --> B["v8::internal::compiler  
::BytecodeGraphBuilder  
::mark_as_needing_eager_checkpoint"]
```

A diagram showing a call from the `PrepareEagerCheckpoint` method of the `v8::internal::compiler::BytecodeGraphBuilder` class to the `mark_as_needing_eager_checkpoint` method of the same class. The call is represented by a blue arrow pointing from the left box to the right box.
