

v8::internal::maglev
::Uint32Constant::PrintParams

```
graph LR; A["v8::internal::maglev  
::Uint32Constant::PrintParams"] --> B["v8::internal::maglev  
::Uint32Constant::value"]
```

A diagram showing a call from the `PrintParams` method to the `value` property. The left box is shaded gray and contains the text `v8::internal::maglev::Uint32Constant::PrintParams`. A blue arrow points from the right side of this box to the right box, which is white and contains the text `v8::internal::maglev::Uint32Constant::value`.
