

v8::internal::wasm
::WasmEHDataGenerator
::EndTryCatchBlocks

```
graph LR; A["v8::internal::wasm  
::WasmEHDataGenerator  
::EndTryCatchBlocks"] --> B["v8::internal::wasm  
::WasmEHData::GetTryBranchOf"]
```

A diagram showing a call from the `EndTryCatchBlocks` method of the `WasmEHDataGenerator` class to the `GetTryBranchOf` method of the `WasmEHData` class. The source box is shaded gray and the target box is white. A blue arrow points from the source to the target.

v8::internal::wasm
::WasmEHData::GetTryBranchOf
