v8::internal::Debug
::BreakAtEntry

```
graph LR; A[v8::internal::SharedFunctionInfo::BreakAtEntry] --> C[v8::internal::Debug::BreakAtEntry]; B[v8::internal::Heap::InsertIntoRememberedSetFromCode::DebugBreakAtEntry] --> C;
```

The diagram illustrates a relationship between three V8 internal symbols. On the left, there are two white boxes with black borders. The top box contains the text 'v8::internal::SharedFunctionInfo::BreakAtEntry'. The bottom box contains the text 'v8::internal::Heap::InsertIntoRememberedSetFromCode::DebugBreakAtEntry'. On the right, there is a gray box with a black border containing the text 'v8::internal::Debug::BreakAtEntry'. Two blue arrows point from the right side of the two white boxes to the left side of the gray box, indicating that both the top and bottom symbols point to the 'v8::internal::Debug::BreakAtEntry' symbol.
