

v8::internal::PagedNewSpace
AllocatorPolicy::EnsureAllocation

v8::internal::PagedNewSpace
AllocatorPolicy::FreeLinearAllocationArea

v8::internal::MutablePage
Metadata::DecreaseAllocatedLabSize

```
graph LR; A["v8::internal::PagedNewSpace  
AllocatorPolicy::EnsureAllocation"] --> C["v8::internal::MutablePage  
Metadata::DecreaseAllocatedLabSize"]; B["v8::internal::PagedNewSpace  
AllocatorPolicy::FreeLinearAllocationArea"] --> C;
```

The diagram illustrates a relationship between three V8 JavaScript engine functions. On the left, two white rectangular boxes represent source functions: 'v8::internal::PagedNewSpace AllocatorPolicy::EnsureAllocation' (top) and 'v8::internal::PagedNewSpace AllocatorPolicy::FreeLinearAllocationArea' (bottom). On the right, a gray rectangular box represents the target function: 'v8::internal::MutablePage Metadata::DecreaseAllocatedLabSize'. Two blue arrows point from the right side of each source box to the left side of the target box, indicating that both source functions call or interact with the target function.
