

RegMode

```
classDiagram
    class RegMode {
    }
    class "v8::internal::wasm::RegModeTransform" {
    }
    RegMode "1" *-- "1" v8::internal::wasm::RegModeTransform
    linkStyle 0 stroke-width:2px
    linkStyle 0 stroke:#f00,stroke-dasharray: 5 5
```

The diagram shows a class named 'RegMode' at the top, represented by a rectangle with three horizontal compartments. The top compartment contains the text 'RegMode'. Below it is a composition relationship line, indicated by a solid line with an open diamond at the bottom. To the right of the line, the text '+from' and '+to' is written. The line connects to a second class box at the bottom, which is shaded gray and also has three horizontal compartments. The top compartment of this box contains the text 'v8::internal::wasm::RegModeTransform'. The bottom two compartments of this box are empty.
