

v8::internal::SharedMacro
Assembler::I32x4TruncF32x4U

```
graph LR; A["v8::internal::SharedMacroAssembler::I32x4TruncF32x4U"] --> B["v8::internal::CpuFeatures::IsSupported"]
```

A diagram showing a dependency. On the left, a grey rectangular box contains the text "v8::internal::SharedMacroAssembler::I32x4TruncF32x4U". A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text "v8::internal::CpuFeatures::IsSupported".
