

v8::internal::wasm
::WasmInterpreterRuntime
::ExecuteIndirectCall

```
graph LR; A["v8::internal::wasm  
::WasmInterpreterRuntime  
::ExecuteIndirectCall"] --> B["v8::internal::wasm  
::IndirectFunctionTableEntry  
::implicit_arg"]
```

A diagram showing a call from the `WasmInterpreterRuntime::ExecuteIndirectCall` method to the `IndirectFunctionTableEntry::implicit_arg` property. The source box is white with a black border, and the target box is gray with a black border. A blue arrow points from the source to the target.
