The diagram illustrates a dependency or data flow. On the left, two white rectangular boxes represent source functions: 'v8::base::EmulatedVirtualAddressSubspace::AllocatePages' (top) and 'v8::base::EmulatedVirtualAddressSubspace::AllocateSharedPages' (bottom). On the right, a gray rectangular box represents a target variable: 'v8::base::EmulatedVirtualAddressSubspace::unmapped\_size'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both functions interact with or update the 'unmapped\_size' variable.
