

v8::internal::anonymous  
\_namespace{regexp-compiler  
::cc}::EatsAtLeastPropagator  
::VisitAction

```
graph LR; A["v8::internal::anonymous  
_namespace{regexp-compiler  
::cc}::EatsAtLeastPropagator  
::VisitAction"] --> B["v8::internal::EatsAtLeast  
Info::IsZero"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is white with a black border and contains the text 'v8::internal::anonymous', '\_namespace{regexp-compiler', '::cc}::EatsAtLeastPropagator', and '::VisitAction' on four lines. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'v8::internal::EatsAtLeast' and 'Info::IsZero' on two lines.

v8::internal::EatsAtLeast  
Info::IsZero
