

v8::internal::wasm  
::WasmModuleBuilder  
::ExportImportedFunction

```
graph LR; A["v8::internal::wasm  
::WasmModuleBuilder  
::ExportImportedFunction"] --> B["v8::internal::wasm  
::name"]
```

A diagram showing a relationship between two V8 internal WASM-related classes. On the left, a gray box contains the text 'v8::internal::wasm', '::WasmModuleBuilder', and '::ExportImportedFunction'. A blue arrow points from this box to a white box on the right. The white box contains the text 'v8::internal::wasm' and '::name'.
