

std::true_type

```
classDiagram
    class std_true_type["std::true_type"]
    class v8_internal_detail_is_simple_subtype["v8::internal::detail::is_simple_subtype<HeapObjectLayout, Object>"]
    v8_internal_detail_is_simple_subtype --|> std_true_type
```

The diagram illustrates a class hierarchy. At the bottom is a class box for `v8::internal::detail::is_simple_subtype<HeapObjectLayout, Object>`, which is shaded gray and divided into three horizontal sections. The top section contains the class name. Above it is a class box for `std::true_type`, which is white and also divided into three horizontal sections. A blue arrow with an open triangular head points from the top section of the lower class to the bottom section of the upper class, indicating inheritance.

v8::internal::detail
::is_simple_subtype<
HeapObjectLayout, Object >
