

v8::internal::Allocation  
Observer

```
graph BT; A["v8::internal::StressConcurrentAllocationObserver"] --> B["v8::internal::AllocationObserver"]
```

The diagram illustrates a class inheritance relationship. At the bottom is a gray-shaded box labeled 'v8::internal::StressConcurrentAllocationObserver'. A blue arrow points vertically upwards from this box to a white box at the top labeled 'v8::internal::AllocationObserver', indicating that the bottom class inherits from the top class.
