```

The diagram illustrates a relationship between three functions. On the left, two white rectangular boxes with black borders contain the function names 'unibrow::Utf8::Encode' (top) and 'v8::anonymous_namespace {api::cc}::WriteUtf8Impl' (bottom). On the right, a gray rectangular box with a black border contains the function name 'unibrow::Utf8::EncodeOneByte'. Two blue arrows point from the right side of each white box to the left side of the gray box, indicating that both functions on the left point to or call the function on the right.
