

v8::internal::Analysis
::set_flags

```
graph LR; A["v8::internal::Analysis::set_flags"] --> B["v8::internal::Analysis::flags"]
```

A diagram showing a call from the `set_flags` method to the `flags` property. The left box is shaded gray and contains the text `v8::internal::Analysis::set_flags`. A dark blue arrow points from the right side of this box to the left side of the right box. The right box is white and contains the text `v8::internal::Analysis::flags`.
