

v8::internal::AllStatic

```
classDiagram
    class AllStatic["v8::internal::AllStatic"]
    class ByteArrayShape["v8::internal::ByteArrayShape"]
    ByteArrayShape --|> AllStatic
```

The diagram consists of two class boxes. The top box, labeled 'v8::internal::AllStatic', is divided into three horizontal sections: the top section contains the class name, and the two bottom sections are empty. The bottom box, labeled 'v8::internal::ByteArrayShape', is divided into three horizontal sections: the top section contains the class name, the middle section contains three public attributes ('+ kElementSize', '+ kMapRootIndex', and '+ kLengthEqualsCapacity'), and the bottom section is empty. A blue arrow with an open triangular head points from the top of the bottom box to the bottom of the top box, indicating inheritance.

v8::internal::ByteArrayShape

+ kElementSize
+ kMapRootIndex
+ kLengthEqualsCapacity
