

v8::internal::Symbol  
::is\_private\_name

v8::internal::Symbol  
::set\_is\_private\_name

v8::internal::Symbol  
::flags

```
graph LR; A["v8::internal::Symbol::is_private_name"] --> C["v8::internal::Symbol::flags"]; B["v8::internal::Symbol::set_is_private_name"] --> C;
```

The diagram illustrates a relationship between three V8 internal symbols. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'v8::internal::Symbol::is\_private\_name' and the bottom box contains 'v8::internal::Symbol::set\_is\_private\_name'. On the right, there is a gray rectangular box with a black border containing the text 'v8::internal::Symbol::flags'. Two blue arrows point from the right side of each white box to the left side of the gray box, indicating that both 'is\_private\_name' and 'set\_is\_private\_name' are associated with or point to the 'flags' property of the 'v8::internal::Symbol'.
