

v8::internal::SloppyBlock
FunctionStatement::set
_statement

```
graph LR; A["v8::internal::SloppyBlock  
FunctionStatement::set  
_statement"] --> B["v8::internal::SloppyBlock  
FunctionStatement::statement"]
```

A diagram illustrating a pointer relationship between two V8 internal objects. On the left, a gray-shaded box contains the text 'v8::internal::SloppyBlock', 'FunctionStatement::set', and '_statement'. A blue arrow points from this box to a white box on the right. The white box contains the text 'v8::internal::SloppyBlock', 'FunctionStatement::statement', and 'statement'.
