

v8::internal::Code
::SourcePosition

v8::internal::Code
::SourceStatementPosition

v8::internal::Code
::has_source_position_table

```
graph LR; A[v8::internal::Code::SourcePosition] --> C[v8::internal::Code::has_source_position_table]; B[v8::internal::Code::SourceStatementPosition] --> C;
```

The diagram illustrates a relationship between two source position classes and a common flag. On the left, there are two white rectangular boxes. The top box contains the text 'v8::internal::Code::SourcePosition' and the bottom box contains 'v8::internal::Code::SourceStatementPosition'. Blue arrows point from the right side of each of these boxes to a single gray rectangular box on the right. This gray box contains the text 'v8::internal::Code::has_source_position_table'.
