

v8::tracing::TracedValue
::AppendString

v8::tracing::TracedValue
::SetString

v8::tracing::anonymous
_namespace{traced-value
::cc}::EscapeAndAppendString

```
graph LR; A[v8::tracing::TracedValue::AppendString] --> C[v8::tracing::anonymous_namespace{traced-value::cc}::EscapeAndAppendString]; B[v8::tracing::TracedValue::SetString] --> C;
```

The diagram illustrates two function calls on the left, each with a blue arrow pointing to a single target box on the right. The top box is labeled 'v8::tracing::TracedValue::AppendString' and the bottom box is labeled 'v8::tracing::TracedValue::SetString'. Both arrows point to a gray-shaded box on the right labeled 'v8::tracing::anonymous_namespace{traced-value::cc}::EscapeAndAppendString'.
