

wasm\_val\_vec\_copy

wasm\_val\_vec\_new

adopt\_val

```
graph LR; A[wasm_val_vec_copy] --> C[adopt_val]; B[wasm_val_vec_new] --> C;
```

The diagram illustrates a dependency or relationship between three functions. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'wasm\_val\_vec\_copy' and the bottom box contains 'wasm\_val\_vec\_new'. On the right, there is a gray rectangular box containing the text 'adopt\_val'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the 'adopt\_val' box. The top arrow starts from the right side of the 'wasm\_val\_vec\_copy' box, and the bottom arrow starts from the right side of the 'wasm\_val\_vec\_new' box.
