

cppgc::internal::PreFinalizer
Handler::NotifyAllocationInPrefinalizer

```
graph LR; A["cppgc::internal::PreFinalizer  
Handler::NotifyAllocationInPrefinalizer"] --> B["size"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is gray with a black border and contains two lines of text: 'cppgc::internal::PreFinalizer' and 'Handler::NotifyAllocationInPrefinalizer'. A dark blue arrow points from the right side of this box to the left side of a second box. The second box is white with a black border and contains the word 'size'.
