

ranges.h

```
graph TD; ranges_h[ranges.h] --> cmath[cmath]; ranges_h --> type_traits[type_traits];
```

A diagram illustrating the dependencies of the `ranges.h` header file. At the top, a gray box labeled `ranges.h` has two blue arrows pointing downwards to two white boxes below it. The left box is labeled `cmath` and the right box is labeled `type_traits`. This indicates that `ranges.h` depends on both `cmath` and `type_traits`.
