

```
v8::internal::anonymous  
_namespace{regexp-compiler  
_tonode::cc}::AddNonBmpSurrogatePairs
```

A diagram showing a call to the `AddNonBmpSurrogatePairs` function. The call is shown in a white box on the left, and an arrow points from it to a gray box on the right, which represents the function's implementation.

```
v8::internal::TextNode  
::CreateForSurrogatePair
```
