

v8::internal::wasm  
::WasmCode::RegisterTrapHandlerData

```
graph LR; A[v8::internal::wasm::WasmCode::RegisterTrapHandlerData] --> B[v8::internal::trap_handler::RegisterHandlerData]; B --> C[v8::internal::trap_handler::CreateHandlerData];
```

The diagram illustrates a sequence of three V8 internal trap handler data structures. The first box, labeled 'v8::internal::wasm::WasmCode::RegisterTrapHandlerData', is white with a black border. A blue arrow points from its right side to the second box, labeled 'v8::internal::trap\_handler::RegisterHandlerData', which is also white with a black border. Another blue arrow points from the right side of the second box to the third box, labeled 'v8::internal::trap\_handler::CreateHandlerData', which is gray with a black border.
