

v8::internal::SmallOrdered  
HashMap::Add

v8::internal::SmallOrdered  
HashSet::Add

v8::internal::GetOrCreateHash

```
graph LR; A[v8::internal::SmallOrderedHashMap::Add] --> C[v8::internal::GetOrCreateHash]; B[v8::internal::SmallOrderedHashSet::Add] --> C;
```

The diagram illustrates a dependency or call relationship. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'v8::internal::SmallOrderedHashMap::Add' and the bottom box contains 'v8::internal::SmallOrderedHashSet::Add'. On the right, there is a single gray rectangular box with a black border containing the text 'v8::internal::GetOrCreateHash'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'SmallOrderedHashMap::Add' and 'SmallOrderedHashSet::Add' utilize the 'GetOrCreateHash' function.
