

v8::internal::Deserializer
< LocalIsolate >::LogNewMapEvents

```
graph LR; A["v8::internal::Deserializer< LocalIsolate >::LogNewMapEvents"] --> B["v8::internal::SlotAccessorForHeapObject::offset"]
```

A diagram showing a call from the `v8::internal::Deserializer` class to the `v8::internal::SlotAccessorForHeapObject::offset` method. The call is represented by a blue arrow pointing from the left box to the right box.

v8::internal::SlotAccessor
ForHeapObject::offset
