

```
v8::internal::compiler  
::LinearScanAllocator  
::UnhandledLiveRangeOrdering  
::operator()
```

```
graph LR; A["v8::internal::compiler  
::LinearScanAllocator  
::UnhandledLiveRangeOrdering  
::operator()"] --> B["v8::internal::compiler  
::LiveRange::ShouldBeAllocated  
Before"]
```

A diagram showing a call from the `v8::internal::compiler::LinearScanAllocator::UnhandledLiveRangeOrdering::operator()` to the `v8::internal::compiler::LiveRange::ShouldBeAllocatedBefore` method. The call is represented by a blue arrow pointing from the left box to the right box.

```
v8::internal::compiler  
::LiveRange::ShouldBeAllocated  
Before
```
